Item # L0-6 AGHDPE, 3/8" Barbed Equal 90° Elbow

3/8" Barbed Equal 90° Elbow

RoHS Compliant

· [SPECIFICATIONS](#) · [MATERIAL DESCRIPTION](#)

SPECIFICATIONS

Hose Barb	3/8 in
Material Type	Antimicrobial
Material	Antimicrobial High Density Polyethylene (AGHDPE)
Minimum Order	10

MATERIAL DESCRIPTION

AGHDPE - Antimicrobial (Protected) High Density Polyethylene

- Antimicrobial protected Ag fittings are available in Nylon, Kynar®, Polypropylene and HDPE. These fittings incorporate natural silver ion protection to guard against microbial colonization and biofilm formation on their surfaces. Kynar® Ag fittings (AGNK) are autoclavable.
- HDPE complies with FDA 21 CFR 177.1520 when used unmodified for the manufacture of food contact articles. HDPE has various applications for use in medical products and devices. It has excellent resistance to chemicals, but exhibits lower thermal resistance than other materials. It is a softer material than nylon or polypropylene and much softer than Kynar®.
